## Lord Mayor Of Cork In Critical Condition From Hunger Strike

LONDON, Aug. 25.—Terence MacSwiney, lord mayor of Cork, who has been on a hunger strike in prison here since being removed to this city from Cork, and whose condition has given rise to grave apprehension, was still conscious this morning. Apparently, however, his condition was considered critical, as Father Dominick, his private chaplain, administered the last sacrament.

LUCERNE, SWITZERLAND, August 25.—Premier Lloyd George in a statement today concerning the case of Lord Mayor MacSwiney, of Cork, whose condition is grave because of his hunger strike in Brixton jail, London, said in substance that, whatever the consequences, the government could not take the responsibility of releasing MacSwiney.

## INJUNCTION SOUGHT TO RESTRAIN COLBY FROM PROCLAIMING RATIFICATION

WASHINGTON, D. C., August 25.—Application for an injunction to restrain Secretary Colby of the state department from promulgating ratification of the federal suffrage amendment was filed in the district supreme court today by counsel for the American Constitutional League. Associate Justice Siddons required that authority for such procedure be cited and agreed to hear counsel on the point during the day.

Application was made by Attorney A. D. Smith in behalf of Charles S. Fairchild, of New York, president of the league. Justice Siddons said he could not consider the matter until counsel had presented authority under which he contended the court might act to restrain the secretary of state from issuing a proclamation announcing ratification on receipt of certification of the action of Tennessee as 39th state. He suggested that counsel present such citations tomorrow, but Mr. Smith said this might be too late and Justice Siddons agreed to remain in his chambers during the day to consider the authorities which counsel might later present.

This was the second attempt by the league to obtain from the district court an injunction restraining Mr. Colby from proclaiming the ratification. The first effort was made last month before Tennessee had voted. Justice Baller in dismissing the proceedings held that the court was without authority to inquire into the action of the state legislatures in ratifying the suffrage amendment and that it had no authority to pass on the validity of such an amendment. An appeal to the supreme court of the United States was noted by counsel for the league.

## Democrats Accused Of Extravagance By Harding; Greater Economy Is Urged

MARION, O., August 25.—Greater individual and governmental economy were urged by Senator Harding in a front porch speech today accusing the Democratic administration of extravagance and giving credit to the Republican congress for saving nearly a billion dollars since it came into power.

The Republican nominee also declared for repeal of war time legislation for better federal maintenance of highways and for readjustment of taxation. In a brief reference to ratification of the suffrage amendment he asserted his confidence that the enfranchisement of women would be a long step forward in securing capable government.

The speech was delivered to a delegation of Republicans from Wyandot county, Ohio. Its text follows in part:

U. S. Enjoys Peace

"Our country is suffering today in common with much of the world as a result of the great war. We have this difference to distinguish us from Europe: We have actual peace, though not formally declared, while much of Europe is engaged in war, directly or indirectly. The European states have made their covenant, but war continues. We have entered into no covenant and we have actual peace, but we have also the aftermath of the war in high cost of living, in disturbed social conditions, and in uncertainty in our industrial and financial affairs.

"This condition arises largely from the fact that the administration made no provision for a return to a peace basis. The government at Washington is still functioning largely under war time legislation. Not only is the effect mischievous but their organized machinery is a source of great and unnecessary expense to the people of this country.

Most Reduce Government Cost

"We need to reduce our cost of government as one means towards reducing the cost of living. But that is not the only remedy. It may be difficult to indicate any particular remedy to achieve this much desired result, but certainly anything that exacts an unusual money demand for government is calculated to raise the cost of the necessities of life. What we need is to have the government stop its extravagance as an example to individual thrift. Just now we need to practice economy in all things. This may sound like mockery to the man or woman whose all is consumed in the struggle for existence, but its application is to those who are expending unnecessarily for their waste is the cause of want to those who have not enough.

## Reds Mobilize On Borders Of Georgia

LONDON, August 25.—An alarming concentration of Bolshevik forces on the borders of the republic of Georgia is reported in advices to the Georgian government here. Troops which were assembled at Akstafa southeast of Tiflis are said to already have occupied the central zone in that region.

A note dispatched to the Bolshevik government of Azerbaijan relative to this concentration of troops is declared to have brought a reply that the move is in accordance with "a certain plan regarding Armenia."

This "certain plan" is believed by the Georgian leaders to be a scheme on the part of Soviet leaders to march forces through Georgia and Armenia and establish communication with Turkish Nationalists in Asia Minor.

## Fuller Bunk Says:

## REDS MAY BREAK OFF THE PEACE CONFERENCE

LONDON, August 25.—An immediate rupture of the Russo-Polish peace negotiations at Minsk will result if the Poles adhere to their demand for withdrawal of the main Russian forces, says a message received here today from George Tchitcherine, the Russian Soviet foreign minister, dated Monday at Moscow.

## NOTED BEAUTY TO BECOME A BRIDE

WARSAW, August 25.—(By the Associated Press).—Kolin, an important town near the East Prussian frontier, north of Lomza, has been taken by Polish forces which have been sweeping rapidly northward in pursuit of the retreating Bolsheviks. More than 10,000 prisoners, who were cut off from the main body of the Soviet army have been captured in this region.

Reports from various fronts, particularly the northern sectors of the line, indicate the Bolsheviks are demoralized and fleeing everywhere in great disorder. General Solonowski, minister of war, has issued a statement to Polish newspapers, declaring that the Soviet armies have been decisively beaten everywhere, adding that of 250,000 Bolshevik troops participating in the offensive for the capture of Warsaw, more than 110,000 have been accounted for and that nearly all other detachments have been shot to pieces. He estimates the number of prisoners at 50,000 and the number of other Bolshevik casualties at 40,000.

Military observers assert the Polish victory and the successes in the campaign now being carried out form one of the most interesting military strategic problems of recent years.

Two Cossack regiments have crossed into East Prussia northwest of Mlawa to escape capture, according to announcement by military authorities, and there are indications that Soviet infantry units numbering many thousands of men have also taken flight across the frontier at various points.

The remainder of the fourth Bolshevik army is surrounded near Mlawa, and while disorganized, is endeavoring to fight its way eastward. It attacked in Polish Siberian brigade near Chorzow, about 20 miles north of Przasnysz, but was repulsed, losing many prisoners.

## Another Wage Confab

COLUMBUS, O., August 25.—Called by the executive board of the United Mine Workers of America, Ohio coal operators and miners are to meet here this afternoon, for a general discussion of the wage situation.

The meeting will be chiefly held to discuss the view point of both the operators and the miners. It is understood that the miners are prepared to make demands similar to those at the recent conference in Cleveland.

## Stands Her Children Up Against Wall And Fires Gun At Them

FRESNO, CALIF., August 25.—The eight-year-old daughter of Mrs. Laura J. Brown, is dead, and Mrs. Brown and her ten-year-old son, are injured seriously as the result, the police assert, of shots fired today by Mrs. Brown.

According to the police, Mrs. Brown blindfolded the two children, stood them against the wall and fired a shot gun at them. She then turned the weapon on herself, they said. Mrs. Brown had been under treatment for a nervous disorder for some time, the officers are informed.

## Selfish, Greedy Interests Are Trying To Buy Presidential Election, Reiterates Cox

PRINCETON, IND., August 25.—Attacking on Republican campaign financing, Cox said he favored farmer members of the federal reserve board, the tariff commission, Agricultural production he said, must be increased or America will be importing foodstuffs within a short time.

Rehabilitation of the railroads, Governor Cox declared, is necessary to aid in the campaign for progress and peace and other interests.

Rehabilitation of the railroads, Governor Cox declared, is necessary to aid in the campaign for progress and peace and other interests.

## "CASKETS" BORNE FROM TRAIN WERE FULL OF "SPIRITS"

CLEVELAND, Aug. 25.—A motor house stood in the Euclid Avenue station last night while three attendants solemnly bore to it a "casket" that had arrived on the midnight train from Pittsburgh. A police squad observed that the "casket" was nearly square, color similar to caskets, quickly followed. Then the hearse solemnly started on its way, the police following. When the driver saw the "casket" in the station he quickened his pace, so did the passengers. The procession became a wild chase that ended when the driver jumped from the hearse and ran. In the hearse were 41 quarts of rum. Station attendants say that the hearse was called regularly for other "caskets" every night for some time.

## Masked Men Steal Liquor

HARRISBURG, KY., August 25.—Ten men, all armed and wearing masks, held up two night watchmen at the Van Arsdale distillery, nine miles north of Harrisburg, early today, pulled fifteen barrels of whiskey out of the warehouse to a waiting truck and sped away.

The truck was traced to this city, where the trail was lost.

## Wage Conference Starts

KANSAS CITY, Mo., Aug. 25.—Officials of the United Mine Workers of America from Kansas, Missouri and Arkansas met here today to decide the amount of a wage increase which they plan to ask. According to Alexander Housh, president of the Kansas district, an increase of approximately 150c a day, making the wage for day and month about \$5.00 a day, will be asked.

## GOING AHEAD WITH LEAGUE WITHOUT U.S. PARTICIPATION

BY DAVID LAWRENCE  
(Copyright 1920 By Times Pub. Co.)  
WASHINGTON, August 24.—Details of the meetings of the council of the League of Nations, not covered in the cable dispatches, have just reached here from Spain and they show particular activity in a program of commercial and economic blockade which is to be relied upon more than military or naval force to keep the peace of the world.

"The vital fact of today," writes one of the officials who has no connection of course with our government, "is that the League of Nations is in existence and is rapidly organizing regardless of America's defection. It is the sheafest sign to say that all the other nations of the world cannot organize a society for peace and cooperation without America. Every day disproves it. The League is going on courageously. Thirty nine nations are already bound by its provisions which they cannot ignore without violating their signed word. The United States cannot destroy the present League; it can build up a wholly new League. It must either stay outside a community of nations organized for cooperation and for peace or come into that League with such reservations as it thinks necessary and with the purpose of pushing all these great movements for which American foreign policy has always stood."

League Not Going On Rocks

The foregoing view is expressed by one who has no connection with American official controversy but brings out a new point—namely that far from going on the rocks because America

## ORDER MORE PEP IN DRIVE ON THE COAL PROFITEERS

WASHINGTON, D. C., August 25.—Announcement that the campaign against profiteering on coal would be broadened with special attention to the situation at bituminous points, was made today at the department of justice.

The drive will center at the bunkering stations of Hampton Roads and Baltimore from which complaints have been the most frequent. "Renewed activity" was ordered at Baltimore yesterday, according to Special Assistant Attorney General Mitchell, who is directing the campaign against coal profiteers.

The announcement followed publication by the federal trade commission of findings on an investigation showing that West Virginia coal costing \$3.49 a ton delivered at Hampton Roads was being sold at prices ranging as high as \$20 a ton.

Department officials indicated their intention of asking "the limit of the law" as a penalty where conviction of coal profiteering is obtained.

The trade commission report said that the average cost of coal at the mines in West Virginia was \$3.49 a ton. With respect to the Baltimore and Hampton Roads deliveries, the freight would increase the cost about \$2 a ton.

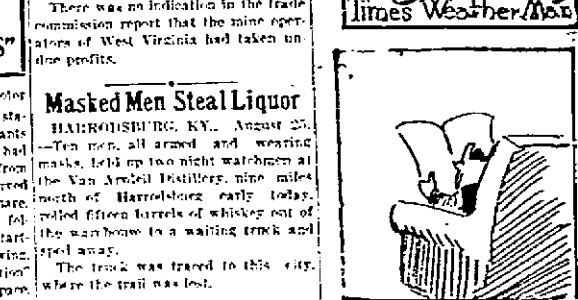

Against this the shipping board has been forced to pay between \$5 and \$20 a ton, Chairman Benson declared when the last contracts were let.

There was no indication in the trade commission report that the mine operators of West Virginia had taken undue profits.

## Fire Horses Passe

NEW YORK, Aug. 25.—The picturesque gallop of fire horses to fires in Manhattan became a memory today with the complete motorization of the fire department. The last horse-drawn apparatus formally passed out of existence and special ceremonies were held at fire headquarters to mark the event.

The cards identifying members of the Portsmouth Automobile Club with the Ohio State and Automobile Association, have been received by the club secretary, at the Chamber of Commerce office, on Gallop street.

All members of the club who have paid their dues are requested to call at the above office for these cards, which will be of great benefit to them while motoring through every important city of the country.

There are still a few cut steel radiator emblems for the club members, awaiting their owners at the Chamber of Commerce.

## HUNTER HOLDS MAYS BLAMELESS

Fred Hunter, scout of the St. Louis Cardinals, who is here on a visit, says that he was a warm personal friend of Ray Chapman, who was killed, the result of being hit in the head by a pitched ball.

"I hold Carl Mays blameless and know that he would not hit any batter intentionally. Any pitcher is likely to make a wild pitch once in a while," Mays right today is as popular as he ever was, as he would not have hit Chapman for a million dollars. I know that they were close friends," Mr. Hunter said Wednesday.

## DEMOCRATS PROVIDE EQUAL REPRESENTATION FOR WOMEN

## Ironton Solvay Team Here Saturday

The Portsmouth Solvay baseball nine, champions of the Industrial League 1919, will meet the Ironton Solvay team at 3:30 p. m. (new time) Saturday, at the Industrial League grounds, Sixteenth and Findlay streets, in an effort to win the hotly contested Solvay series.

Saturday the local team played the Ashland Solvay, winning 9 to 4. Ashland beat Ironton 2 to 0 two weeks ago at Ironton.

The Solvay series is being played to determine the best team, which will be awarded a suitable trophy, for having the highest average, after each team has played three games.

Saturday is scheduled to pitch and Cannon will perform behind the home plate for the visiting team. The battery of the local champions has not been decided upon, but it will probably be Townsend or Baughman, in the box, and James or Fiver as catcher.

If the Portsmouth Solvay team wins the series with Ironton and Ashland, both of whom have rattling good teams they will play a scrap series with the Freeborn Mines aggregation, of Marion, W. Va. This team has played 25 games this season, and has yet to be defeated. They have played such teams as Pocahontas, Bluefield, Graham, Kernell, and Charleston.

There will be no admission at the game Saturday afternoon, and a good crowd is expected.

## Brooklyn Pitcher Assaults Umpire

PITTSBURGH, PENN., August 25.—Two rival teams, Dorleigh Grubbs was on the mound for the Robins and when declared out at the plate he nearly tore Umpire Risher's mask off trying to attack him. Later Shortstop Ollie Olson tried to take it out on Umpire Moran for declaring Southworth safe at second.

## Mr. Jones Has Had Series Of Accidents

The Jackson Herald Wednesday contained the following account of the accident in which Edwin Jones was badly hurt Monday in an auto accident:

"Edwin Jones, former candidate for Governor of Ohio, and Presenting Attorney John G. Evans, were seriously injured Monday about noon when a Nash coupe belonging to Mr. Jones crashed into a concrete abutment on the Oak Hill pike just below Globe Furnace.

As a result of the accident, Mr. Jones was thrown against the steering wheel and hurt internally, while Mr. Evans was thrown through the heavy windshield, cutting his face in a terrible way and slightly fracturing his skull.

The ambulance was hastily called and they were taken to the Burnell home on Pearl street, where medical aid was summoned as quickly as possible and every care and attention was given them.

They will both recover, it is given out, but Mr. Evans will be badly scarred, it is thought. The machine was damaged to the extent of about \$100.

The car in which the accident occurred is practically a new one, having been purchased by Mr. Jones. Since that time he has suffered several minor accidents with it, and has never been able to carefully drive it. On Monday Day it got from under his control and he dashed down a great ditch, and would have perhaps suffered as he did this time had not a tree caught him from turning over.

It is now hoped by his friends that he will employ a chauffeur in the future. It is needless to say that the many friends of both are wishing these men a speedy recovery.

## Joy Rides And Love Making Revealed At Hearing; Couple Assessed \$25 Fine

Joy rides and love making figured largely in the hearing of W. O. Trevor, son of real estate agent, and Mrs. Margaret Hinderle, wife of Leonard H. Hinderle, a brakeman, in Municipal court today on charges of disorderly conduct and which resulted in their conviction.

Judge Small in assessing a fine of \$25 and costs against each of the defendants, pointed out the danger of more serious trouble if the couple continued to associate and promised them a jail sentence if they came back.

The couple was arrested last night following some trouble which grew out of Hinderle and Mrs. Faye Trevor attacking the pair at Eighth and Prospect streets as they were returning from a joy ride.

Hinderle and Mrs. Trevor, who appeared in court to press the charges against the pair, told the court that Trevor had been calling on the woman regularly and that he frequently had taken her out for auto rides late at night.

## AUTO CHASE AROUSED JACKSON

JACKSON, Aug. 25.—Conservative Jackson was aroused from her quiet dreaming last night when a car said to be an Essex, dashed through here with a siren in hot pursuit, with a crack of a pistol shot ringing out now and then to add interest and excitement to the event.

Jackson officers were notified early in the evening that a car from "Chillicothe" was loaded toward Jackson and asked that same be stopped. It is said that this car made its "last" away from Chillicothe after a wild joy ride there. The Jackson officers were very near catching him down when they hit town and the chase that followed was a one-sided affair.

The chase extended over West and down Sixth street and the car disappeared into the Oak Hill Pike. The parties were not caught.

## OBITUARY

The funeral services of Francis E. Kuntz were held from the home of Mr. Sarah Kuntz, 1117 Portsmouth street, at 2 o'clock Tuesday afternoon. Rev. N. H. Butler officiated at the service. Six friends of the deceased were present, including Mr. and Mrs. George Kuntz, Mr. and Mrs. John Kuntz, Mr. and Mrs. William Kuntz, and Mr. and Mrs. Charles Kuntz.

Francis Kuntz was 62 years of age. He was born in Germany and came to this country in 1860. He was a member of the German Lutheran church and was a very kind and generous man.

He is survived by his wife, Mrs. Kuntz, and by several children and grandchildren.

## On Way Home

Nathaniel and his wife, Dr. D. H. Hinderle, were on their way home from a visit to the hospital when they were stopped by a car. The car was driven by a man who was wearing a dark coat and a hat. The man was armed with a pistol and threatened the doctor and his wife. The doctor and his wife were taken to the hospital and are now being treated for their injuries.

## BIRTHS

A baby was born to Mr. and Mrs. John C. Burke, of Jackson and Harmon street, at 1:30 o'clock this afternoon. The baby is a boy and weighs 7 pounds. The mother and child are both doing well.

## Gruesome Discovery Is Made By Workmen

Eight skeletons were unearthed in Traction Addition next to Hempstead Hospital in the past two days by workmen digging ditches and laying sewer lines in the addition.

The bones were found, some buried six to eight feet below the surface of the ground, and others barely two feet under ground. One skeleton was in a sitting position while another found intact was lying flat with large stones placed over the head, similar to the way the Indians used to bury the dead.

G. W. Lester, 1814 Dexter avenue and S. D. Williams, McLoughlin county, Kentucky were two of the workmen who dug into the skeletons while excavating. Remains of skulls, bones, jawbones and teeth were brought to the Times office and positively identified as those of humans.

A perfectly intact head was unearthed this morning and carried off by two boys.

Two theories have been advanced as to the peculiar find, one that murders were common here when the tracks of the Norfolk and Western railway were laid years ago, and the victims were thrown into holes dug along the track there. Another theory advanced is that remains were buried next to the old pest house twenty years back during disastrous smallpox epidemic, when the large field was used as a burying ground.

The skeletons were found at the north end of the addition, about 75 yards west of the pike and near the railroad tracks.

The bones and remains were thrown back into the holes by the workmen, with the exception of the head which was carried off by the boys, and the "evidence" brought to the Times office.

## Auto Receivers Named

INDIANAPOLIS, Ind., August 25.—Suit for the appointment of a receiver for the William Small Company, which manufactures the Monroe automobile, was filed in the Marion Superior Court today by William Small, President of the company. He alleges it is insolvent.

The liabilities are estimated at \$200,000 and the assets are about half that sum. Receivers were appointed as follows: William Lesterly, Vice President of the E. W. Stinchard Company, and Riley G. Adams, President of the Security Trust Company.

## Letters From Our Readers

Editor of The Times:

Please give me space in your valuable paper to add tree owners who have Catalpa shade trees. These trees are invariably attacked by dark brown (large) worms. The only remedy I know to get rid of them is to cut the tree down or spray with arsenate of lead, and a spray which reaches the leaves. Please look at two trees which were very much infested about six or eight weeks ago at 713 Sixth street, which were saved with spraying. Look at the several Catalpa trees on Third street, east of Chillicothe street.

Yours truly,  
READER.

## "Home Brew" Is Seized

ATHENS, Ohio, August 25.—Athens police today invaded the home of W. J. Flannery and confiscated about 50 bottles of "home brew" beer. Flannery confessed he made the beer, officers say and admitted he had been making it several months for his own use. He told the officers he had given some of the brew away, but had never sold any.

## Pauline Frederick Sues For Divorce

NEW YORK, August 25.—In the county clerk's office recently Pauline Frederick, the motion picture actress, filed papers in a suit for divorce from Charles W. McLoughlin, better known as William Mack, actor and playwright.

The plaintiff in her complaint, which was filed by her attorney, George Edwin Joseph, charges her husband with misconduct and mentions "an unknown woman."

Accompanying the complaint was a report filed by a referee recommending that an interlocutory decree be granted, which was based on testimony previously taken from witnesses.

Pauline Frederick married William Mack in Washington D. C. on September 27, 1917, shortly after he was divorced from Marjorie Randow, who named Miss Frederick as corespondent in her suit.

Miss Frederick and William Mack have been separated for several months.

## New Departure In Methods Of Raising Funds

NEW YORK, August 25.—A departure in Republican methods in raising campaign funds was described here today by Fred W. Upton, national treasurer, who said that never in the party's history had campaign fund quotas been as well distributed over the entire country as at present.

Of the amount already collected by the national committee something like \$300,000, New York has contributed only \$210,000, while in former national campaigns the state's share of the amount has been at least 75 percent.

Mr. Upton said.

Commenting on Governor Cox's assertion that millions had been raised by the Republican national organization "to buy an underdog in the presidency," Mr. Upton declared that if the sums collected by national state and county organizations were lumped together, the total would be less than 50 percent of the \$15,000,000 raised by Governor Cox.

Of the \$2,000,000 assigned to New York as its campaign quota, Mr. Upton said, only one-third would go into the national fund.

## Harding May Arrange To Visit Fair

COLUMBUS, O., August 25.—Senator Harding may visit the State Fair August 31, Presidential Day, but he will not make a political speech.

That word was brought to the fair management this morning by R. D. Williamson, member of the board of agriculture, who spent yesterday afternoon with Harding, in an effort to get him to attend the fair, along with Democratic Nominee Cox and Prohibition Nominee Watkins.

Senator Harding has a conference of governors 31st day, Tuesday forenoon, but indicated yesterday he may be able to push it ahead, in time to drive to the fair Tuesday afternoon, but he will not make a political speech, Williamson said this morning.

As a result of Williamson's statement, sentiment around the fair offices this morning seemed to indicate political speech-making by any of the candidates who will attend, will be done away with.

"The people don't want to listen to a political speech," Williamson said. "It is my opinion that the proper thing to do would be to have the candidates view the various exhibits, and give the people a chance to see them, perhaps having them make very short informal speeches."

It was said here today that George H. Clark, Canton, chairman of the Republican state executive committee, may go to Marion in a further effort to induce Harding to attend the fair next Tuesday.

### Give Yourself Ten Shaves On Us Learn What a Real, Non-Pulling Skin-Soothing Shave Is

**FREE**  
Ten Shaves without pull or  
stinging—without tender,  
burning skin or turned in  
hair. Try without, clean,  
quick, PERFECT shaves.  
THEN, if you (as thick of  
any desirable razor really  
shaves the Collins razor takes  
it back to your dealer and  
get your money again. Sam-  
ple, we'll do it TODAY.

Did you ever see a razor  
like this before? Not un-  
less you've been button-  
holed by one of the Collins  
fervid booster-users. It's  
new. The whole idea is  
new. Anyone could tell  
you the diagonal stroke  
was the only way to slice  
the beard off without pull.  
But the Collins is the first  
to make a razor with the  
diagonal stroke built-in.  
Instead of a straight cut-  
ting edge, it has a round  
blade. The round guard  
fits the face and keeps the  
skin taut. The round blade  
draws smoothly over the  
skin. Every stroke is a two-  
way stroke sideways and

up or sideways and down.  
It can't pull, because it gets  
the hair at the point of least  
resistance every time, no  
matter at what angle the  
hair grows. It slips through  
the stiffest stubble with  
satin smoothness. And  
when you have finished—  
oh, boy what a shave!  
Quick!—to the nearest  
dealer. Tell him to come  
through with one of these  
grouch-dispelling, joy-  
bringing razors; before his  
supply is gone. So far we  
haven't been able to keep  
up with the men who want  
them.

**REMEMBER** the time  
the first automobile  
parade was organized? Even  
the good old torchlight pro-  
cession had to give way  
before the advance of prog-  
ress.

Tires are often sold the  
same way politics are.

The last people to wake  
up to what they are getting  
are the people who pay the  
bills.

The bills are getting too  
big these days in both cases.  
And the man who is feeling  
it most with respect to tires  
is the man who owns a  
moderate-price car.

The idea that the small car  
owner doesn't need a good  
tire is rapidly going the way  
of all mistaken ideas.

He needs it *more than*  
*anyone else*. It's part of our  
job, as we view it, to see  
that he gets it.

Our tire service starts with  
good tires—U. S. Tires. All  
sizes made to a single stand-  
ard of quality—none graded  
down to the price of the car  
they will go on.

U. S. perfected the first  
straight side automobile tire  
—the first pneumatic truck  
tire.

The U. S. guarantee is for  
the life of the tire, and not  
for a limited mileage.

When we recommend and  
sell U. S. Tires we do so in  
the interest of greater tire  
economy. It is our experi-  
ence that that is the best  
way to build up a sound and  
sizable business.

## Requisite of Art

What is wanted in a work of art is  
an unforced, natural, adequate cor-  
respondence between fancy and form,  
matter and spirit, so that one shall not  
be distracted by its naturalism, mys-  
ticism, cubism, symbolism, but shall  
simply be moved in a deep impersonal  
way by perception of another's vision.

Differ as to Earth's Age.  
Scientists differ greatly as to the  
earth's age, estimates varying from  
20,000,000 to 150,000,000 years. One  
of the first estimates was that of John  
Phillips, who in 1869 based on a study  
of stratified rock his assertion that  
the figure lay somewhere "between  
28,000,000 and 96,000,000 years."

Why They Succeed.  
Perhaps you think that a lot of suc-  
cessful men won success because they  
had nerve, whereas their success  
probably is due more to good, hard  
work while you were standing on the  
street corner arguing politics or re-  
ligion.—Atchison Globe.

## SEARCH ENDS IN JOY RIDERS BEING FOUND; FIGHT ENSUES; AUTO IS BADLY DAMAGED

When Leonard H. Rinderle, a  
brakeman of 715 Chillicothe street,  
and Mrs. Faye Trevorton, 2341 Walnut  
street, caught their help-mates, W. O.  
Trevorton and Margaret Rinderle out  
for riding late Tuesday night, some  
stirring scenes followed, which re-  
sulted in the police being called to  
the disturbance.

Rinderle and Mrs. Trevorton foxed  
the couple for quite a time last night

before finally catching them as they  
turned a corner in the East End and  
they at once started a vigorous attack,  
striking the couple in the machine and  
forcing Trevorton to bring the car to a  
halt. Then ensued a lively fight in  
which the automobile top was  
wrecked, according to the police, who  
went to the scene and arrested Trever-  
ton and the Rinderle woman. The  
couple was brought to the city jail  
and locked up on formal charges of  
disorderly conduct.

The trouble created quite a bit of  
excitement in the vicinity, many per-  
sons being aroused from their slumber  
by the disorder incident to the per-  
sonal encounter. Trevorton is promi-  
nently identified with a local fraternal  
organization.  
All the principals are well known in  
this city and have never before been  
in any trouble.  
Trevorton, who has been in the city  
for several months, and Mrs. Rinderle  
were still in jail this morning.

## Looking Into Rate Increase

CHILICOTHE, Aug. 25.—The an-  
nounced increase in rates for the con-  
sumption of electricity furnished by  
the Chillicothe Electric Railway, Light  
and Power company has centered in-  
terest on the part of the public and as  
a result representative citizens, H. P.  
Carruth, E. F. Pearce and R. H. G.  
Smith, went to Columbus Wednesday  
to meet with members of the Ohio  
Utilities Commission for an investi-  
gation into the proposed increases.  
Contrary to the idea held by some

that the action of investigation was  
prompted by a formal protest on the  
part of the Chamber of Commerce,  
the three men are not going before the  
commission as representatives of the  
Chamber of Commerce nor are they  
prepared to present any kind of formal  
protest. On the other hand the com-  
mittee goes for the purpose of inves-  
tigating the "justification for the in-  
crease and compare proposed increases  
for this city with other increases  
granted to other companies in other  
cities.

Polish Envoys Not Satisfied

MINSK, SOVIET RUSSIA, August 25.—Associated Press Staff Correspondent with Armistice Commission (via Soviet Wireless, Moscow).—The Polish amicable delegates are not satisfied with the Bolshevik terms which make reference to the boundary line proposed by Earl Curzon, minister of foreign affairs. The ground of the Polish opposition is that the Curzon boundary line would in effect be the same as a third partition of Poland. In submitting their reply to the Bolshevik delegates the Polish representatives stated that by agreeing to this Curzon line the Soviets were seeking to retain territory wrongfully taken from Poland by the Russian czars.

## OHIOAN ESCAPES TORTURE BY TIMELY DISCOVERY

Lon Tucker, Steubenville, Gains Speedy Relief From Sufferings by Taking Reese Formula R-11, the Great Stomach, Liver and Kidney Tonic.

Timely discovery of Reese Formula R-11 enabled Lon Tucker, 330 North Street, Steubenville, Ohio, to escape further sufferings from stomach trouble, indigestion, pains about the heart, and extreme nervousness night and day.

Mr. Tucker, who is a member of the Loyal Order of Moose and Junior Order of American Mechanics, writes:

"It was impossible for me to eat regularly when I read a testimonial telling of Reese Formula R-11. I was very near 'all in' and had no strength or energy to speak of. Life seemed a burden both night and day. I could get no restful sleep and would awake from the most horrible and frightful dreams.

"I could not sit through a show, as sitting seemed to aggravate the pains around my heart and stomach.

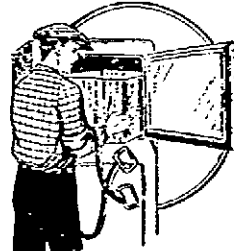

"Absolute relief came to me after taking the fifth dose of Reese Formula R-11, and from then on to the present time I have had decided relief every day. My whole life seems brighter and now worth living, while before it was simply a drag on my wife and family. I am only too glad to tell sufferers of the wonderful good one bottle of Reese Formula R-11 has done for me."

The Reese Formula R-11 means quick and positive relief for indigestion, nervousness, rheumatism, headaches, stomach and kidney trouble, dizziness, female weaknesses, urinary trouble and sleeplessness.

For information about your ailments, write our Medical Adviser, care of The Reese Formula Company, Huntington, W. Va.

## WHOLESALE FACES HUGE LOSSES IN SUGAR MARKET

COLUMBUS, O., August 25.—Sugar dropped to 16 cents a pound in Columbus Tuesday, but only two stores were selling it at this price, as far as was learned. The prevailing price was around 19 and 20 cents.

Facing increased losses running into thousands of dollars every time sugar drops, wholesalers bitterly resent expressions that they are now "getting what they deserve." That the wholesaler has been the heaviest loser and chief sufferer on the whole sugar deal is their reply to the repeated assertion that they made fabulous sums on sugar.

Members of the Polish delegation explaining their attitude on this boundary issue said they were willing to discuss the Curzon line with the Bolsheviks at a later date but would not accept it as a basis at this time.

A note attached to the foregoing dispatch states that the Polish censors refused to pass a reference to the Curzon boundary line, so the dispatch was sent over a Soviet wireless to Moscow and London.

## INCREASED RATES ON RAILROADS AND SHIP LINES BECOME EFFECTIVE TONIGHT

WASHINGTON, Aug. 25.—Increased transportation charges on all railroad and steamship lines will become effective at midnight tonight.

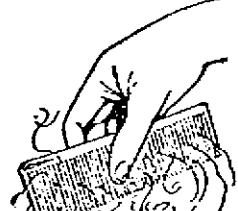

Nearly every railroad has first blanket schedules with the interstate commerce commission making effective the general increase of approximately 33 1/3 percent in freight rates of 20 percent in passenger fares and excess baggage and milk charges, and of 50 percent in charges for Pullman accommodations. Water carriers will inaugurate joint rail and water traffic rate increases corresponding to the all-rail advances.

Steamship lines operating on the Atlantic Coast, Great Lakes and Gulf of Mexico will increase their all-water rates from 20 percent to 40 percent on freight and from 20 percent to 33 1/3 percent on passenger traffic, as a result of a decision last night by the shipping board. One day's notice is required to make the new water rates effective, but a number of lines filed schedules carrying the authorized increases in time to put them into effect.

Hearings on petitions of carriers for higher rates on interstate traffic where state commissions have refused to approve the increases sought, have been authorized by the interstate commerce commission, which under the transportation act has jurisdiction over interstate rates.

When your skin disease reaches its worst stage and the flaky burning causes you to scratch and scratch in an effort to obtain relief, there is many a sleepless night in store for you.

### Constant Torture

The radical and rational treatment is to take a thorough course of S. S. S., the purely vegetable blood remedy, which thoroughly cleanses the blood of every particle of impurity. A few bottles of S. S. S. will run out the disease germs from your blood, your complexion will begin to clear up and you will soon be rid of the disease as thousands of others have done.

The team that beats the Giants will win the flag in the National League.

This prediction was made Wednesday by Scout Fred Hunter of the St. Louis Cardinals. "Cincinnati and Brooklyn also have good teams and if one of them beats the Giants I pick them to win the flag. I figure Cincinnati is stronger than Brooklyn and they play better ball. The Reds always are figuring how to win the next game and this spirit usually wins it." Mr. Hunter said today.

The Giants have a finished team and four fine pitchers. Keep an eye on them.

Mr. Hunter had a chance to run down here from Columbus and made the trip in his new sliver.

### Passed Away In California

IRONTON, Aug. 25.—A telegram came this morning to Dr. W. F. Martling stating that Mrs. Mary Keller, wife of Dr. Lester Keller of York, Pa., had passed away in California. Mrs. Keller was the daughter of Judge Allen and was just a few years ago she was a resident of Ironton. She was a highly cultured lady, versed in art, music, literature and had frequently contributed verse and prose to newspapers. Ironton, where she was born and reared, where she had many friends.

### POLITICS

CINCINNATI, Aug. 25.—Former Lieut. Col. L. H. Dube, who was a candidate for the Republican nomination for county commissioner at the recent primary, and R. K. Hynicka, met Monday afternoon for the first time, and Dube announced that he will give his best efforts to the campaign for the success of the entire Republican ticket. The meeting of Dube and Hynicka followed an exchange of letters between the two, copies of which follow:

My Dear Mr. Hynicka: I want to take this opportunity to congratulate you upon the large vote of the Republican party in Hamilton county at the recent primary, and to state that I think the outlook is good for the Republican success in November. I personally desire to let bygones be bygones, and I shall dedicate my best efforts to the success of the party. I hope that you will entertain no ill-will against me for my recent campaign. I am sure that I aimed to conduct myself so as to give no chance for reaction at the general election. I put up the best scrap that I could without an organization or funds, and accept defeat with good grace.

Yours most sincerely,  
L. H. DUBE.

Hud K. Hynicka,  
Columbia Theatre Building,  
701 Seventh Avenue,  
New York, Aug. 17, 1920.

Col. L. H. Dube, care Duke & McCrorey Mercantile Bldg. 1012, Cincinnati, O.

My Dear Sir: I beg to acknowledge receipt of yours of the 14th inst. to my Cincinnati office, the same having been forwarded here to my New York office. I appreciate the sentiments expressed and beg to assure you that I do not entertain any ill-will toward you by reason of the recent primary election. I feel sure that had you been thoroughly informed as to certain organization matters you would not have been misled into making statements as to facts that were attributed to you. I am the home Friday, the 26th inst., to remain over in the middle of next week. I would be pleased to make your personal acquaintance at your pleasure and convenience. Yours very truly,  
RUD K. HYNICKA.

Dube also sent a letter of congratulation to Chas. F. Harding, Jacob Knollman, Sr. and Harold Harper, the successful opponents. It was informed that I did not receive the information of the Republican Executive Committee for the nomination because my Republicanism was questioned. Dube said Thursday, "I want to prove to them now that I am a loyal Republican by doing whatever I can for the success of Senator Harding and the entire Republican ticket. I have been visited by several delegations of citizens and have been offered campaign funds, but I declined because I do not want to do anything that might endanger the success of the Republican party. We need perfect harmony now."

## The Markets

## NEW YORK STOCKS

NEW YORK, Aug. 25—The market for New York stocks, especially the Mexican group, were the only laggards in the general advance of prices at the opening of today's stock market. Yesterday's rally made further substantial headway, the shorts again being driven to cover, particularly in rails, steels and equipments. Preliminary quotations for foreign exchange made no material response to the more favorable character of advances from abroad.

The market steadied after the first hour, prior to which steels, oils and equipments cancelled part of their initial gain. Investment falls helped to stabilize prices, further buying being noted in foreign exchange, transportation, Chicago, Northwestern, Norfolk and Western and several of the cheaper issues, such as St. Louis and San Francisco, Texas Pacific, Missouri, Kansas and Texas, St. Paul preferred and New Haven. Shipbuilding threw off recent depression, Atlantic Gulf and American International scoring substantial gains. Sugars, Tobacco, and metals were appreciably higher, but the usual industrial leaders were comparatively dull. There was a moderate rally in restraints to London.

## CHICAGO GRAIN AND PROVISIONS

CHICAGO, Aug. 25—Further export business in wheat yesterday was reflected in the future markets today by scattered buying, there also being a considerable amount of exchanging of futures with cash houses. Initial quotations showed a net gain of half cent to 1/4 cent over yesterday's finish, with December 2 1/4 to 2 3/4 and March 2 1/4 to 2 3/4.

Corn started steady to firm but buying of the September delivery by buyers that were active on that side early caused a quick upturn. Opening prices were unchanged to 1/4 cent higher, with September 1 1/4 to 1 1/2 and December 1 1/4 to 1 1/2.

The finish showed a range from half cent lower to 3/4 cent higher, with September 2 1/4 to 2 3/4 and March 2 1/4 to 2 3/4.

Options followed in the wake of corn but showed a firmer undertone first quotations being 1/4 to 1/2 cent higher with September 6 1/4 to 6 1/2 and December 6 1/4 to 6 1/2.

Provisions were weak with the decline in hogs, first futures ranging from unchanged to 5 cents lower. The market closed at the lowest

## LIFE IS CO-OPERATION

OUT of this post-war prosperity strange things are coming to the world. One of these is the example to be observed in various places in this country of labor organizations venturing into active business and becoming employers of labor.

Yesterday it was the garment workers who had set aside enough of their savings to open factories and retail establishments to enter into active competition with other concerns. Today it is the machinists who not only announce the purchase of various plants but also claim to control a couple of sizable banks. Tomorrow may bring us even a more extensive venture into a field so recently regarded by all labor as the particular province of the thing known as "capital."

It is not unusual for men in this country to pass from the ranks of the employed to those of the employer, by means of money saved. It is the road most of our employers have traveled. But it is unusual for this step to be taken in concert by large bodies of workers. What the result will be in material success or failure probably will depend upon the quality of the management the workers enlist in their service. But whatever the result in that respect, the workers and probably also their former employers will get one piece of information out of the experiment. That is the supreme value of co-operation. That, in fact, all life is co-operation.

By this we mean co-operation in the larger sense, and not merely the business of forming a stock company. The new employers will learn that no group or class of our people can set themselves aside and be sufficient unto themselves. If it takes all kinds of people to make a world, it none the less takes all kinds of co-operation to make the world worth while.

The garment industry or the machine business could be organized, conceivably so as to dictate to all the rest of the world in that particular line. But inevitably such organizations, if carried too far, would react upon the heads of the organizers. "Live and let live" is a piece of wisdom discovered a long time ago, and it is just as good now as the first time it was uttered. If you charge too much for your goods the other fellow will have to charge too much for his in order to be able to buy yours and nobody is benefited.

## PROSPEROUS CUBA

FINAL and positive, though tardy, defeat of the sugar shortage propaganda allows popular interest to turn to elements of factors in the production of sugar to determine just why prices should be what they are. A writer for the National Geographic Society gives some illuminating facts and describes a condition that may awaken any possible dormant envy in the breast of the American farmer, at the ease with which the Cuban sugar planter "gets away with it."

The American consumer will need some time to satisfy himself through figures that with the crop doubled and the price on plantations more than quadrupled Cuban producers can be suffering from the economic slump claimed in their behalf. The consumer, unfamiliar with the technique of sugar growing, will be surprised to learn, for instance, that the seed problem is disposed of for at least ten seasons through a single planting and that the plantation motive power—oxen—feeds largely from the stripped leaves of the plants year after year. This is what may excite the envy of the Yankee farmer whose crops require labor and cost of seed annually.

At the time of the Panama-Pacific exposition the planter received 242 cents per pound for his product, a rate that allowed the share planter, the "colono," from \$10 to \$51 per acre and the owner of the ground from \$51 to \$51 per acre. With present prices running from four to six times the price received for sugar at that time and labor cost virtually the same, the American consumer may easily estimate how the "poor sugar grower" fares as compared to the man who pays the bills. And the American farmer who feeds the nation and tries at times to feed the world has a basis of comparative profit-making that will add nothing to his good humor. Why shouldn't Cuba have become a land of luxury and riches?

Talking league of nations may be all right, but if we were leading the talking we would stress the fact that not one word in the Republican platform is given to the boys who fought and won the war of nations. This notwithstanding the swivel chair warriors' herabants are mostly busy on the other side, or are going to get busy when they think the excitement will be such that it will be forgotten what happened to them in that little municipal election of a year ago.

## DOING THE RIGHT THING

THE action of city council in acting favorably upon the request of President Jordan, of the Chamber of Commerce, in the matter of stopping the erection of a gasoline filling station at the city end of the Scioto bridge, is to be highly commended. There is an enormous amount of travel over this bridge and as it is the approach is very dangerous. With a gasoline station at the narrow point, and the certainty that cars will be parked in the street while awaiting turns, the danger would be vastly increased, with the almost certainty of accidents and collisions. Protection of the bridge and of the people who use it demand that the gasoline filling station be not located at this point.

## DISARMING KENTUCKY

LIFE will never be what it was in "Ol' Kaintuck." Prohibition deprived the Blue Grass state of one of its traditions and now Governor Morrow threatens to rob it of another. He has declared war on pistol toters. Hereafter, he warns, persons convicted of carrying firearms concealed need not expect executive clemency. So in future Kentuckians must forego the distinction of being either "half shot" or fatally shot. Pretty soon Kentucky's sole remaining claims to fame will be the proud possession of "Marse Henry" and its blooded stock.

Scioto county isn't altogether a pleasant place for the moonshiner to shine.

Nothing strange about this weather. It is experienced every year towards the latter part of August.

New York's city hospital for inebriates is having the old time procession of crazy drunks. Not so much drinking, but the stuff nowadays has more paralysis.

New York's slowest city in the country. Just begun to buy autos there now like every other place has been buying 'em for five years.

## New-York - Day-By-Day

BY O. O. MCINTYRE

NEW YORK, Aug. 25.—

It was after midnight.

And a sudden shower.

Had driven me.

Into the cheery doorway.

Of an all night drug store.

And under the stairs.

Was a newspaper hut.

And inside was a man.

Under the sickly glare.

Of a flaring gas jet.

Who was looking out.

With sightless eyes.

And now and then a smile.

Played around his mouth.

And when the rain stopped.

I walked out to him.

And said how cool it was.

After the show.

And he said that it was.

But everybody rushed home.

And he guessed he would.

Close up his little shop.

And I waited for him.

Until he tapped his way.

Out to the sidewalk.

And he was going my way.

And we walked together.

Until we came to a park.

Where he held out his hand.

And said he stopped there.

To sit on a bench each night.

And I asked if I might.

Sit beside him awhile.

And he told me of his life.

And how he prayed for strength.

When he knew he was a gang.

Into the Land of Darkness.

And that it wasn't so bad.

Then he told a funny story.

And I thought of my troubles.

And how small they are.

And we sat silent awhile.

And I drank in the beauty.

Of the midnight heavens.

Along with patios of gold.

And far down below.

The silvery Hudson.

Was rippling on to the sea.

And after a time.

My sightless friend.

As if sensing my mood.

Placed his hand on my arm.

And said: "God is good."

And when I left him.

He was still sitting there.

With a smile of content.

### A Motor Accident.

A Cleveland man tells of a terrifying experience that was rather unusual at the time, but which had a very pleasant aftermath. During the old days of the right-hand drive cars he was driving in another city where traffic signals were similar to those now in vogue in Cleveland. He was in the act of making a turn at a street intersection and held out his right hand as a signal. "Imagine my surprise," he says, "when I felt my hand seized and shaken by an attractive young woman who evidently mistook my signal for a salutation. The woman was a perfect stranger to me—then—but we both joined in hearty laughter. The strangest part of it is, she is my wife now."

## The DIARY OF AN ENGAGED GIRL

JACK'S LETTERS DISTURB LINDSEY.

Had several more letters from Jack today, and I must say I was a bit peeved, for he writes so much about her. Of course, I know he is seeing a great deal of a pretty cousin, but goodness, no girl wants to have to plod through pages of description concerning another girl—not this girl, anyhow. And when I think of how jealous Jack was whenever Cecil even presumed to look at me too long, I can't help feeling some sort of old saying, "Men were deceivers ever."

Believe me, if Cecil were here now I'd let him be as selfish as he liked. It really is stupid to pounce and dream over any man, especially if he will have cousins just around the corner.

The "flappers" here are the cutest ever, most of 'em. They have such nice golden, roughly braided hanging down their backs, and such red cheeks and white teeth. "Flappers" are the flower of English womanhood, I think!

Went out sketching all afternoon, after dodging a shopping "tour" with mother and Aunt Cecilia. Couldn't have stood it to day; British Museum was enough for yours truly yesterday. The great outdoors beckons to me always, and I am a real sun-worshipper.

Went down along the embankment, and did a powerful little black and white of the Thames at high noon, and the boats and lugs floating up and down the river. Of course, I couldn't resist curiosity from the small boy variety of Britisher, but I like small boys as well as big ones, and when I had managed to attract as large and respectable a crowd as possible, I began talking to them in my purest United States. Of course they could hardly get me, and they were so amazed at actually talking to an American

young lady that they almost forgot to be rude. They were friendly kids, and I passed around a paper of chocolate, that I had bought on the way down, and you ought to have seen them disappear!

The English children and half-grown are certainly some young thing, sport, ruddy and rugged little things, most of them, even the slim variety. This shonablonde climate seems to make them thrive and grow rasy. They are high spirited, too, which I what I miss in the grown-ups. Why I had the best time with that gang around me, and after a while a hardy-party came along and some little party began to dance. The boys joined in, and it reminded me of a carnival.

Two of the girls did a dance together, and it was graceful to a degree. They are naturally graceful, most of these poor kids, and make their finer sisters of the upper class look like thirty crabs when a dance comes along. Their slim little bodies are all spunk and exuberance, and they usually keep perfect time.

One of the boys did a "Hiland" thing and the rest kept time with their hands and feet, and cheered him when he had finished.

I asked him if he would pose for me to my back yard some day, but he was such a shy kiddie, despite his exhibition dancing. He hardly raised his voice above a whisper when he answered me, and his blush was too sweet for me. But I finally won him over and he is to come day after tomorrow and have lunch with us and then pose, like a regular beauty. About thirteen with "crisp, gold hair, deep, brown eyes. Some of these little street beauties fairly make your heart turn over.

## BILLY WILKES

BY FRANCES TREGO MONTGOMERY

At the next stop Billy's train leader. However, the express agent while he was taking on the parcels slammed a heavy box on top of the crate. Billy heard the thump, crack and felt the box giving outside a rattle. For a moment he was afraid that the heavy box would break down his crate and squeeze him flat underneath it, but as soon as the train had started again the messenger moved the box into the far end of the car and Billy was delighted to find that at last the boards on one side of his prison were loosened. The messenger had laid aside his glowing pipe at this stop, but now he took it up again, although smoking was against the rules, and came over to tease Billy. He had no more than thrust his hand through when Billy lurched his body sideways as hard as he could against the boards and out he tumbled.

He was on his feet as quick as a cat and made a jump at the man. The express agent dodged him and ran into the far end of the car, bumping wildly for something with which he might strike the angry cat. Billy was up to him before he had time to find anything, however, and chased him from one end of the car to the other. At last the man stopped in front of the big box that he had taken on at the last station and waited for Billy to jump for him. When Billy jumped, he sprang aside and let the goat plunge head first into the side of the box breaking open one of the boards and hurting his head considerably.

By this time the man was at the other end of the car and laughing. Billy ran after him again, but this time he knew the man's ways. When he started to dodge back from the other end of the car, Billy also turned like a flash and was right after him. This time he got him and gave him a bump that sent the man sprawling headlong on the floor. As the man went down his arm came a jerk and his lighted pipe went through the hole that Billy had bored in the big box.

## WHO'S WHO

In The Days News

WILLIAM BOYCE THOMPSON  
 Though the public at large is hardly aware of the fact, William Boyce Thompson of New York is now and throughout the campaign will continue to be one of the really important persons in the councils of the national Republican party. It will be recalled that he was one of the four delegates at large from New York state to the Republican national convention in Chicago last June.

Mr. Thompson was born in 1870 in Virginia City, Mont. He was educated at Columbia University school of mines. Since its organization he has been a director of the federal reserve bank of New York and he is a director also of the Metropolitan Life Insurance Company.

In 1912 Mr. Thompson was a Republican presidential elector and he was a delegate to the national convention of his party in 1916. He spent four months in Russia in 1917 as the head of the American Red Cross Mission to that country. He is a member of the Republican and Union League clubs and also of the Rocky Mountain club, in which he is one of the most active figures. He is president of the House of National Association.

In 1918 supporters of Colonel Thompson urged him to enter the Republican primaries against Governor Whitman, who was seeking re-election. He had been one of the heavy contributors to the Whitman campaign in 1916, but had been dissatisfied, according to a report in political circles, with the governor's administration.

Mr. Thompson devoted a great deal of his attention during the war to philanthropic work. He is wealthy, having made much money in mining properties. When Herbert Hoover was fighting to get a large fund for the starving Belgians he telephoned Mr. Thompson, with whom he had been associated in business enterprises, and told him of his efforts.

"Your work interests me greatly," said Mr. Thompson simply. "My contribution is \$100,000."

Oh, how joyous is vacation, cheerful time of recreation, free from trial and tribulation, full of life and animation, when, with feelings of elation, we abandon our vacation.

And enjoy the sweet sensation of entire relaxation; when we quit for illustration, the old wearisome diet, that we had to satiation, lay aside all obligation.

In our daily situation, cease from hard self-abnegation and in some approved location yield to us the fascination of complete and sweet stagnation; or in welcome separation from our usual occupation.

For our simple delectation, seeking no one's approbation, asking no remuneration, with a scorn of compensation, we immerse in recreation, stimulation, meditation, following our inclination, free from any molestation, free from and habitation, leading with ostentation.

Filled with thoughts of exultation at our disposition from the worry and vexation, from the ceaseless irritation, that is found in any station. Seeking pure recuperation, pleasure and rejuvenation, energy, invigoration—that's the sweet joy of vacation!

Modern Flats  
 They had at last obtained a villa in a suburb of London, and he was having the pictures. There was a certain photograph of his wife which he decided must go up, but which was too small to suspend from the wall by a nail. He thereupon got a substantial nail and hammered it into the wall. "There came a knock at the door," said Mr. Newland, said his wife, running to the window. "Your hammering has disturbed him," Mr. Newland hastened to apologize.

"Oh, I don't mind the noise," replied Mr. Newland, cheerily. "I only came to ask if I might hang a picture on the other end of the nail."

## Carpentier Looking For Some Soft Dough

BENTON HARBOR, Mich., Aug. 25.—Why George Carpentier, the French champion, picks out poor old Benton Harbor for his first fight in America, is beyond the comprehension of one Jack Kearns, manager of World's Heavyweight Champion Jack Dempsey, now in training here for his bout Labor Day afternoon with Billy Miske of St. Paul.

Kearns, who has been hot and heavy on the trail of the Frenchman for many months, has a convincing way of pressing his point. He points out that, to begin with, the champion knocked out Levinkey in three rounds, that he was beaten by Bill Brennan three times and four times by Harry Greb. "When Carpentier landed in America," says Kearns, "the child at a meeting with Mike O'Dowd, his manager, announced that he had come to fight Dempsey and nobody else and that he expected to sign articles in six weeks. He was given every chance to do this, but the world knows that the best couldn't get away fast enough when I was in New York ready to sign for Dempsey."

## Buckeyes After Game

The Buckeye baseball nine, which is managed by John Bush, is anxious to schedule a game with a fast aggregation for Sunday afternoon.

The Buckeyes are willing to meet any team on the Industrial League grounds, Sixteenth and Findlay streets, or will go anywhere in the county to play.

Any team interested in this offer is requested to call 1023-X.

## Bohne Should Help Reds

The Reds landed a star infielder when they secured Bohne from the Pacific Coast League. He can play short, third or second and is said to be very fast on the bases. Last year he hit over 200 and stole 47 bases. His should add a lot of strength to the framework of the Reds.

## ELIENSKY PLANS 100 MILE SWIM TO BREAK RECORD

Henry Eliensky.

Henry Eliensky, who holds the world record for endurance swimming, has started "light" training in preparation for his attempt to swim 100 miles in the water this summer.

Eliensky plans to start and finish (if there is any) at the Brighton Beach baths, the management of which has drawn Eliensky out of a two-year retirement with a lucrative offer for an effort to shatter his own world's record of sixty-five miles.

### Shea Tree Cuts Butter Cost.

One Shea tree beside each man's back porch would cut a big slice of butter on the monthly food bill. In Africa vegetable butter is made from the fruit of this tree, and it is said to be of richer taste than any butter made from cows' milk—alleged or actually scraped from a churn and squeezed into the wooden mold which leaves a yellow residue on top of the cake. The Arabs used it in early times, but the Greeks and Romans did without it, used oil, and consequently wore purple silk togas.

### Ventilation Experiments.

Experiments conducted by the New York commission on ventilation demonstrate that as long as the temperature is kept down the vitiated air of an unventilated room where the humidity is kept constant has no direct effect on the pulse, blood pressure, body temperature, respiration or metabolism, though the desire for food is appreciably diminished.

Ray Chapman, hero of the baseball diamond and idol of the fans, was buried at Cleveland, Ohio, while thousands paid respectful homage. The whole city mourned the famous player's passing. The photo was taken just before the body of the star shortstop of the Cleveland Indians, victim of a pitched ball, was carried in a flower-strewn caulk to the altar of St. John's Cathedral, where the last rites of the church were said. His teammates were present in a body.

## Merit Badges Are Awarded To Scouts

The most notable session of the Boy Scouts Court of Honor, held in Portsmouth in years, was held Tuesday night, at the Bureau of Community Service rooms.

The session was notable, not so much for the number of Merit Badges taken, though twenty-eight, an unusually large number were taken by the eight Scouts present, but it was notable because two Scouts, Orville Morris of Troop No. 1, and Charles Frederick of Troop No. 2, achieved their Life and Star degrees, and Harold Herby of Troop No. 8 achieved the rank of Eagle Scout—the highest rank in Scouting.

When one realizes that only seven Scouts of Portsmouth have ever reached this distinction they will realize what this means.

\*Paul Hobbettler, champion Merit Badge getter for Troop No. 8's side was not present, so the side headed by Troop No. 1, ran away with their opponents, taking 16 Merit Badges to their opponents 8, in securing a lead of 9 Merit Badges, so far. It is up to Troop 5 to get busy.

Following is the list of successful Scouts:

Charles Frederick, Troop No. 2, Bird Study, Athletics, Life Saving, Civics, Conservation, and Cooking.  
Orville Morris, Troop No. 1, First Aid, Athletics, Marksmanship, Civics, and Conservation.  
Albert Fuller, Troop No. 1, Swimming, Life Saving, Athletics, Brownie, and Personal Health.  
Howard Clark, Troop No. 8, Carpentry, Craft-work in wood and cooking.  
Carlton Monson, Troop No. 11, Brownie, Swimming, and Personal Health.  
Richard Turner, Troop No. 11, Personal Health and Swimming.  
Harold Herby, Troop No. 8, Camping and Physical Development.

# Yankees Get New Park

NEW YORK, August 25.—The American League in Philadelphia yesterday announced that it was said that work on the new largest baseball park in the world will begin, where the proposal was given the go-ahead from 30,000 to 40,000 persons. It would be pushed as it would be pushed for the 1921 season. All of the 100,000 persons who attended the game at the park would be seated. The park would be located on the site of the old park, which was destroyed by fire in 1917. The new park would be a masterpiece of architecture and would be the finest of its kind in the world. ### Restrictions on Wills.

In Argentina the laws provide that a father must leave his children four-fifths of his fortune, and a husband, if he has no children, has to leave all of his property to his wife. An unmarried son is compelled to leave his parents two-thirds of his property, and only unmarried persons without parents or descendants can make will disposing of their possessions as they see fit.

That enlarged tonsils are generally due to drinking impure water is the contention of Dr. F. Lucas Benham of Exeter, South Australia. He says that in every case he has seen the child was a great drinker of water from the faucet and that whenever he has been able to get filtered or boiled water substituted his patients have improved and their attacks have become rarer.

Jack Dempsey (left) and Billy Miske.

Comes word from Benton Harbor, Mich., where Champion Jack Dempsey and Billy Miske are training for their fifteen-round Labor Day fight that the States who will face the champion will be in much better physical condition and considerably heavier than

the champion tackled Dempsey two times before and shaped the fight for him. This makes the bout the first for Dempsey since coming up the "bellum" up at the time. The news has a lot of interest in it, as it is the first time since the fight at Newark a year ago last July, by knocking him out.
